## First record of *Gonepteryx cleopatra* (LINNAEUS, 1758) in Bulgaria (Lepidoptera : Pieridae)

Julius GANEV

**Samenvatting.** Eerste vermelding van *Gonepteryx cleopatra* (LINNAEUS, 1758) uit Bulgarije (Lepidoptera : Pieridae)

De auteur vermeldt de eerste waarneming van *Gonepteryx cleopatra* (LINNAEUS, 1758) uit Bulgarije : Rila, Kostenetz, 15.VII.1988, leg. J. GANEV.

**Résumé.** Première observation de *Gonepteryx cleopatra* (LINNAEUS, 1758) en Bulgarie (Lepidoptera : Pieridae)

L'auteur relate la première capture de *Gonepteryx cleopatra* (LINNAEUS, 1758) dans les monts Rila en Bulgarie : Kostenetz, 15.VII.1988, leg. J. GANEV.

Ganev, J. : str. Rakovski 84, BG-1000 Sofia, Bulgaria.

On July 15th 1988 while on an excursion to Rila mountain above Kostenetz on the patch to Belmeken at 1000 m, together with D. KIRIAKOV, I caught a freshly emerged male specimen of *Gonepteryx cleopatra* (LINNAEUS, 1758). This strongly suggests that the specimen had emerged at this locality and had not flown from the south, nor been blown over by air currents.

The specimen which I caught belongs to the nominate subspecies of *G. cleopatra cleopatra* (LINNAEUS, 1758).
